

Elaborate and add details

Installing GPUTILS and SDCC on Gentoo Linux

Installing packages on Gentoo is as easy as on any Linux platform.

Emerging GPUTILS

Emerge gputils.

```
emerge -av gputils
```

Emerging SDCC

For now, version 2.5 of SDCC is officialy supported so add the corresponding rule in one of your /etc/portage/packages.keywords files and emerge sdcc.

```
cat '=dev-embedded/sdcc-2.5*' >> /etc/portage/packages.keywords/mios
emerge -av sdcc
```
