## Profile

Hi, I'm Andy!

Originally from New Zealand and trained as a chemist, I've kept up with electronics since my early teens. I started off with bass and effects, then discovered Moog pedals and synths. More recently I've been exploring modular systems and novel tactile elements. Specifically I'm interested in new types of displays and controllers such as OLEDs, programmable LEDs and touch sensors. Below you can find work-in-progress links to my projects and modules.
