

The MBHP_4066 Board

For MIDifying old analog Sound gear You'll need bilateral switches in some cases.

In my case I needed more than 100 of them!

For that reason I created the **MBHP_4066** board.

One MBHP_4066 board provides 16 bilateral switches.

For more Information have a look of the pdf file below.

Thanks for the engaged support **nILS** and **PCB Mike**!

The MBHP_4066 Board (assembled)

The MBHP_4066 Board (PCB, Eagle)

Overview and Details:

- **MBHP_4066** with remarks and a Partlist ==> <http://www.subfrequenz.net/midibox/vss200/mbhp4066v1/MBHP4066V1.pdf>
- Mike will provide the MBHP_4066 board in his Onlineshop ==> http://www.mikes-elektronikseite.de/mshop_englisch/
- 4066 Datasheet (found no better source yet) ==> <http://pdf1.alldatasheet.com/datasheet-pdf/view/8175/NSC/4066.html>
