

MIDIbox Tools

Various Midiboxers use their programming knowledge to make programs which are useful for other midiboxers. If you have made a MIDIbox related tool, post a description and link here!

MIOS Related

- [MIOS Studio](#) is an integrated development environment for MIOS.
- [MIDI Clock sender/receiver, SysEx Upload Tool and Editors](#) (for PIC16F only!)
- [MIOS versions of Serge's SysEx Upload Tool and Editors](#)
- [ACSim](#) - A console C-based Simulator / Debugger; useful for new MIOS applications

GLCD Related

- <http://compiler.kaustic.net/glcd/> GLCD char maker made by Captain Hastings

Patch Management

- [SIDstation patch reader](#) made by JobeC
- [MIDIbox Patch Manager](#) by TL, tool to manage SID & FM patches

VST

- [MIDIbox SID VSTi](#) made by S.M.
